skills

Object-Oriented Design, Software Testing and Debugging, Problem Solving and Logical Thinking, Teamwork, Written and Verbal Communication.

experience

2019–2020 **Curtin University** — Bentley, WA
AASQA CoderDojo Mentor (Volunteer)
I helped young children and teenagers learn and work towards their Digital Goals, whether was was making a web app, game or mobile application.
- Helped trial the Flutter initiative where we taught a smaller group to use Flutter.
- Was relied upon by various other mentors as point of contact for programming.

2019–2020 **Concept Marketing** — 12/17 Foley St, Balcatta WA 6021
Web Developer (Work Experience)
I was hired as a unpaid intern at Concept Marketing for work experience, while working there in my first year I learned a lot of technology I had not seen before. - Built various websites using PHP, Bootstrap, JQuery for frontend and used Wordpress to deploy websites for companies such as http://www.matharoo.com.au/blog/ and https://leachlegal.com.au/guide/
- Learned MySQL, Apache, and other parts of the stack used at Concept to build and deploy websites
- Participated in important meetings for switching to a new CMS

2020 – 2020 **we45** — Remote
Front-End Development
In this internship with we-45 I was hired with the goal of improving the Frontend for various systems at we-45 as well as working with the Backend team to learn and improve that aspect aswell.
- Learned VueJS, State Management and Testing principles for Frontend development
- Introduced to Google Cloud, AWS and Azure

2020–2021 **Woodside Energy** — Perth, WA
Digital Vacation Student
I joined the Woodside team to accelerate Digital Dexterity and help create a new space in Woodside all about Software Reliability, following the google (sre.google) standards and Atlassian standards.
- Evaluated Existing Observability tools at Woodside and ultimately helped lead the decision on what observability tool they would use at Woodside
- Created and deployed multiple company web applications that are to be used for Software Reliability using AWS and React.
- Achieved AWS Cloud Practioner & AWS Associate Solutions Architect within the twelve weeks.
- Worked Agile in a team of four vacation students to achieve a definition and measure Digital Dexterity.

2020–Now **All Saint's College** — Ewing Ave, Bull Creek WA 6149
IT Support Assistant
In this casual position I assist as an 'allrounder' technology assistant, this means that I can do jobs from supporting staff/student by repairing their hardware/helping them with software issues, helping by making software for the IT Department using various languages (PowerShell Scripts, C++ and Python programs) to helping work on the servers/database.

education

2004–2018 **Graduated with** ATAR & WACE — Frederick Irwin Anglican School

2019–2021 **Bachelor of Science** in Computer Science (CWA: 80.63) — Curtin University

other qualifications

2020 **Developer Certificate in Responsive Web Design** — Quincy Larson, Director of FreeCodeCamp

2020 **AWS Cloud Practitioner** — Amazon Web Services (AWS)

2021 **AWS Associate Solutions Architect** — Amazon Web Services (AWS)

awards

2018 **Crew Member Of The Month** — McDonalds
Awarded as recognition for doing an excellent job.

2019 **Recognition of Academic Achievement** Professor Mark Buntine - Dean Of Science - Curtin University
The commendation is awarded in recognition of a high level of academic performance

2020 **Recognition of Academic Achievement** Professor Mark Buntine - Dean Of Science - Curtin University
The commendation is awarded in recognition of a high level of academic performance
